Skills

While in college I was the captain of my speech and debate team earning top honors in parliamentary debate and individual speaking events. When entering law school, I did so with the intent of furthering my public speaking abilities. As I progressed through law school, I entered the advocacy program and travelled to Florida and Illinois as an advocate. While participating in the advocacy program I decided to create the South Texas College of Law Criminal Justice Project. In that capacity I became the only student member of the Executive Committee for the Innocence Project of Texas and hosted/coordinated the largest National Innocence Network Conference. I recently passed the bar exam and am currently licensed to practice law in the State of Texas.
